PROFESSIONAL SUMMARY

Senior-oriented Full-Stack Software Engineer with 2+ year of experience delivering scalable, production-grade applications using Laravel, React.js, Next.js, Node.js, and TypeScript. Proven ability to architect high-performance APIs, lead cross-functional teams, and own complex systems end-to-end across the full SDLC. Rapidly promoted from Intern to Associate Engineer within 6 months. Key deliveries include an enterprise Hotel-CMS, HRM system, a real-time ride-sharing platform, and an AI-integrated LMS. BSc IT First Class Honours, GPA 3.76/4.0.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, Java, Python, SQL, HTML5, CSS3
Frontend: React.js, Next.js, React Native, Angular, Tailwind CSS, Shadcn UI, Bootstrap, Responsive Design
Backend: Laravel, Node.js, Express.js, Spring Boot, RESTful APIs, Microservices Architecture
Databases: MySQL, MongoDB, Prisma ORM, Drizzle ORM, Database Design & Optimization
DevOps & Tools: Git, GitHub, Azure DevOps, CI/CD Pipelines, Docker, Postman, Firebase, AWS, VS Code
Core Concepts: MVC Architecture, OOP, Authentication, CRUD Operations, Agile/Scrum, Code Review, Software Testing

PROFESSIONAL EXPERIENCE

- Software Engineer** Feb 2026 – Present
360 Productions Group Pvt Ltd Colombo, Sri Lanka
 - Design, develop, and maintain scalable web and mobile applications for enterprise clients using React.js, Next.js, Laravel, Node.js, and TypeScript
 - Architect secure, high-performance RESTful APIs and data models with MySQL, MongoDB, and Drizzle ORM; containerize services with Docker for consistent deployments
 - Conduct code reviews and mentor junior developers, owning delivery across the full SDLC from requirements to performance optimization
- Associate Software Engineer** Dec 2025 – Feb 2026
Cybernetic Technologies (Pvt) Ltd Battaramulla, Sri Lanka
 - Built and maintained production web and mobile applications with React.js, Laravel, Node.js, and TypeScript, including secure RESTful APIs and MySQL/MongoDB data models with Prisma ORM
 - Conducted code reviews and mentored junior developers while optimizing application performance across the SDLC
- Software Engineer Intern** Jun 2025 – Dec 2025
Cybernetic Technologies (Pvt) Ltd Battaramulla, Sri Lanka
 - Developed backend functionality in Laravel and responsive frontend components in React.js/Next.js for production-level projects, leading a small development team
 - Performed software testing and debugging in production environments; promoted to Associate Software Engineer within 6 months for exceptional performance
- Junior Software Developer (Intern)** Apr 2024 – Oct 2024
SIBA Dynamics - SIBA Campus Sri Lanka
 - Developed and maintained web applications using PHP, JavaScript, HTML, CSS, and MySQL, and participated in code reviews and client system demonstrations

KEY PROJECTS

- LocalShare** | C#, .NET10, WPF 🗄️
- Built a peer-to-peer LAN file sharing and chat desktop app in C#/.NET that auto-discovers devices on the network with no cloud, accounts, or configuration required
 - Implemented drag-and-drop file transfer at full LAN speed, group chat with direct file drops, and per-user public folder sharing

Wilderness Bliss Hotel CMS & Booking Platform | *Next.js, PostgreSQL, Redis, MinIO S3, Docker*

- Built a full-featured hotel management CMS for Wilderness Bliss Hotel (wildernessb.com), enabling staff to manage rooms, reservations, and content through an intuitive admin interface
- Implemented a PostgreSQL database for structured reservation and inventory data, integrated Redis for high-performance caching, and MinIO S3 for scalable media asset storage
- Containerized the entire application stack with Docker for consistent, reproducible deployments across environments

Human Resource Management System (HRM) | *React.js, Laravel, MySQL, Tailwind CSS*

- Implemented comprehensive modules for shift management, payroll calculations, resignations, and employee allowances
- Integrated frontend and backend services for automated HR operations, reducing manual processing by 60%

UpRide Ride-Sharing Platform | *React Native, Next.js, Firebase, Google Maps API, Stripe, Twilio*

- Developed cross-platform mobile applications for passengers and drivers, plus an admin dashboard
- Implemented real-time ride booking, GPS tracking, fare estimation, secure payment integration, and SOS safety features

Library Management System with AI | *Laravel, MySQL, React Native, Tailwind CSS, AI Integration*

- Built a campus LMS with AI-powered automation for book recommendations and inventory management
- Developed companion mobile application for seamless access and enhanced user experience

Jack Fruit Ceylon Website | *Next.js, PostgreSQL, Redis, MinIO S3, Docker*

- Developed the official website for Jack Fruit Ceylon (Pvt) Ltd, showcasing premium Sri Lankan jackfruit products with a modern, responsive design
- Optimized performance and UX using Next.js, PostgreSQL, Redis caching, and MinIO S3, containerized with Docker

Learning Materials Management System | *PHP, Laravel, MySQL*

- Built a Laravel-based system for organizing, managing, and retrieving educational resources for students and lecturers
- Implemented user management, file categorization, and secure access control

Torrent Search Engine | *Node.js, React.js, Tailwind CSS*

- Built a fast, secure torrent search engine with React and Vite, enabling instant discovery of magnet links through a sleek, modern interface

Angular APP with Laravel API | *Angular, Laravel, API*

- Developed a full-stack CRUD application combining an Angular frontend with a Laravel backend, showcasing seamless client-server integration via RESTful APIs

EDUCATION

Sri Lanka International Buddhist Academy (SIBA Campus)

Bachelor of Science in Information Technology – GPA: 3.76/4.0 (First Class Honours)

Kandy, Sri Lanka

Jul 2022 – Nov 2025

KEY ACHIEVEMENTS

Rapid Career Progression

2025

- Successfully promoted from Software Engineer Intern to Associate Software Engineer within 6 months, recognizing exceptional performance, technical capabilities, and leadership potential

Production Impact

2024 – 2025

- Contributed to multiple production-grade applications serving real-world users with high availability and reliability
- Demonstrated versatility across the full technology stack, from database design to frontend implementation
